Subject: microsoft settlement

Department of justices I am writing to you concerning the Microsoft settlement. I think the settlement is fair to all, and any future litigation will only hurt the consumer. I am disabled and on a limited income,(in some ways we all are, on limited income that is) and Microsoft has help me buy some products I might not otherwise be able to afford. I do own some Microsoft stock, which if the company was left alone the little bit I have invested will help my income someday. thank you for this opportunity to share with you. Ed etzwiler
